Duo

Glass Balustrade System

Duo is a strong and durable point-fixed frameless glass balustrade system. It features two anchors that are securely bolted through the glass panels. This provides extra support and rigidity. The compactness of the bolts and their covers reduces the visible hardware, ensuring a modern style without compromising the security and reliability of your balustrades.

1 Choose your glass configuration

Toughened Glass **SAFE**

Toughened glass have greater strength and safety features than float glass, allowing the glass to break with dull edges.

Interlinking rail and gap clamps may be required*

Laminated Glass **SAFER**

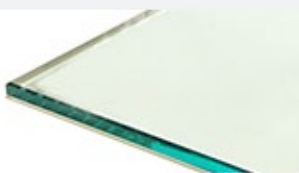

Laminated glass have EVA films between 2 or more layers of toughened glass creating a single panel, guaranteeing that if the glass shatters, it remains bonded together.

SentryGlas™ **SAFEST**

SentryGlas™ have interlayers in the glass that is significantly stronger and stiffer than traditional laminates, ensuring minimal deflection in case of glass breakage.

2 Choose your glass type

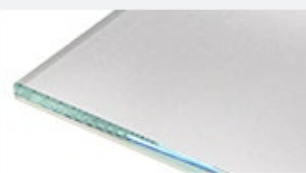

Standard

Has a slight green tint from standard glass attributes

Low-Iron

Provides a clearer and more transparent view

Frosted

Gives superior privacy and security

Tinted

Minimises sun exposure and provides privacy

Your balustrades may consist of the following hardware fixings:

A Interlinking Rail

B Glass Clamp

C Rail Joiner

D Wall Clamp

E Anchor

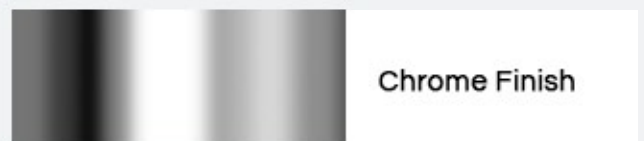

Disc

Square
