# Vista

Glass Balustrade System

\*Completely-frameless look achieved using laminated glass

Vista is a sleek and cantilevered design that combines elegance with robust engineering. This system redefines modern architecture with proprietary clamps, offering a distinctive solution for your space. It takes inspiration from the principles of minimalism – fewer visible elements, but a strong and sophisticated impact.

## 1 Choose your glass configuration

### Toughened Glass **SAFE**

Toughened glass have greater strength and safety features than float glass, allowing the glass to break with dull edges.

Interlinking rail and gap clamps may be required\*

### Laminated Glass **SAFER**

Laminated glass have EVA films between 2 or more layers of toughened glass creating a single panel, guaranteeing that if the glass shatters, it remains bonded together.

### SentryGlas™ **SAFEST**

SentryGlas™ have interlayers in the glass that is significantly stronger and stiffer than traditional laminates, ensuring minimal deflection in case of glass breakage.

## 2 Choose your glass type

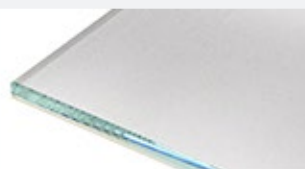

### Standard

Has a slight green tint from standard glass attributes

### Low-Iron

Provides a clearer and more transparent view

### Frosted

Gives superior privacy and security

### Tinted

Minimises sun exposure and provides privacy

Your balustrades may consist of the following hardware fixings:

**A** Interlinking Rail

**B** Glass Clamp

**C** Rail Joiner

**D** Wall Clamp

Would you like guidance on the most suitable option for your property? Our team is ready to assist you.
